Hello team,

I am a resident on Rosemont Road, writing to express that I have some concerns about the 02 redevelopment. I am delighted that the redevelopment is happening and support it in general, but I do not want the buildings to be even taller as they requested.

Our home's light is extremely important to me.

I want more thoughtful improvements made to Finchley Road tube area, it's so congested with the airport buses and beggars. It will only get worse with more volume. Also, Billy Fury way is a dangerous weird place, can they improve that? Elevators at the tube for prams and wheelchairs! Also the proposal needs more trees, green space, and open space.

Kind regards,

Julia
