2025/1358/P	Francoise Findlay Elsworthy Residents Association BCAAC	1 Lower Merton Rise NW3 3RA	15/04/2025 10:43:38	OBJ	<p>Since when is not possible to open bedroom windows, especially on the upper floors of a house, to mitigate any over heating situation?</p> <p>Camden have allowed new builds on Avenue Road and Elsworthy Road to be so elaborate, eg 75 Avenue and 42, 35 Elsworthy that they defy the Council's own green policies. One, 75, required it's own electricity substation and recently Elsworthy Road was reduced to one way traffic for extra electricity supply to 42.</p> <p>In addition the hoarding around 31, erected to protect the site, advertises Valouran and Marcus Cooper with super bright LED lights - advertising during the hours of darkness that is an unwarranted pollution .</p>
