### SKY GARDEN SEDUM BLANKET

High quality Sedum Blanket grown in the UK, to provide the perfect low maintenance solution for extensive green roof systems using a carefully selected mix of sedum species. Sedum are the most commonly used plant species in green roofing due to their ability to grow in harsh weather environments.

Pre-cultivated UK grown vegetation blanket, containing 8-12 species specifically chosen for extensive green roof applications. Grown on 20 mm substrate base on a carrier.

## SYSTEM CONSIDERATIONS

- Instant vegetative cover for extensive sedum blanket systems.
