

Dear Sir/Ma'am

I'm writing to add my objection to the planned changes to cantelowes park. The playground, sand pit and picnic area are such a well loved area with many children's enjoying it no matter what. It's such a lovely open space for them to play and many families, mine included, love going their to enjoy the sun.

The mix of play space, area to have a snack and sand pit allows for another much needed free space, especially in the middle of a cost of living crisis, any space for children to play that's free should be cerished as it can really help families who cannot afford to pay for lots of activities for their children. It would spoil the play ground to have a large area blocked off for a single activity when the park as is can be used for so much.

Kind regards
Ellie
