| 2025/1685/P | M S H | 174 Iverson Road | 28/04/2025 21:31:13 | OBJ | I am opposed to yet another multi-story development to be waved through by Camden Council despite local opposition. The Builder Depot is a vital resource for local tradespeople and artists like myself. Travis Perkins, nearby was also closed when the land was redeveloped for a multi-story block. It seems no consideration has been given to the already failing infrastructure that cannot cope with the traffic as it is. This new development will result in yet more cars on the road and in the area meaning parking places for exisiting residents will become harder to access. There has to be a point when enough is enough but this it appears is nowhere in sight. I work in Blackburn Road and this latest development will mean a poorer quality of life for me and many local residents. |
