2025/1460/P	West Hampstead Liberal Democrats	Camden Liberal Democrats 242 Webheath Workshops Netherwood Street London NW6 2JX	29/04/2025 11:28:47	SUPPRT	<p>Summary: West Hampstead Liberal Democrats support the proposed installation of a gate at the entrance to Heritage Lane. Following engagement with local residents, we believe there is strong and widespread community support for this application.</p> <p>Community Safety: Residents have consistently raised concerns about anti-social behaviour in and around West Hampstead Square and Heritage Lane. Issues reported include public drinking, drug use, intimidation, and, in some cases, incidents of violence. These problems have impacted a broad range of residents, including families, tenants, and homeowners, and have contributed to an ongoing sense of insecurity within the development.</p> <p>The installation of a gate, with intercom access for visitors and deliveries, is considered by the community to be a proportionate and practical measure. It would help create a safer, more secure environment while preserving access for genuine visitors, deliveries, and service providers.</p> <p>Access and Management: We would encourage the applicant and managing agents to ensure that access systems, including any resident app or concierge services, are implemented thoughtfully and equitably. In particular, it is important that shared ownership residents have full and equal access to all necessary features to avoid creating unintended barriers or confusion.</p> <p>Conclusion: This proposal responds directly to longstanding concerns raised by the community. We believe it will significantly enhance the safety, security, and overall environment of the development. The West Hampstead Liberal Democrats support the application.</p>
