2025/1464/P	Russell Tait	FLAT 18 Gower Mews Mansions GOWER MEWS WC1E 6HR	29/04/2025 17:30:46	COMMNT	These units have been installed and are running. The hum of three units can be heard quite clearly even in daytime. I wish to object to this application. The restaurant already causes problems with residential neighbours due to the emission of cooking smells all day/evening and this now a perpetual low hum.
