Re 2025/0770/P installation of antennae pole and cabling

Dear Mr Nicholls

I am writing about the planning application for installation of antennae pole and cabling 31-46 and 48 Stoneleigh terrace N19 5TZ. Please include in the planning condition that all existing and redundant equipment is removed prior to the erection of new masts and cabling. The Whittington estate is littered with loose cabling flapping around in the wind. Apart from being an eyesore it is dangerous as it could fall and cause injury.

Regards

Agnes Stewart
