2025/0902/P	Rosalind Goodfellow	14 Falkland Road London NW5 2PT	01/05/2025 21:51:22	OBJNOT	<p>I have grave concerns about this development due to the direct impact on my property, number 14 Falkland Road. The first floor extension will greatly reduce the daylight reaching our well-used garden and property. It will also restrict our views and feel oppressive.</p> <p>I do not believe a first floor extension is in keeping with the character of north Leverton Street and the conservation area.</p> <p>I broadly agree with the response of 8 Falkland Road including point 6.</p> <p>Therefore, I object to this application.</p> <p>In addition, any changes to walls connected to my property including garden need to make sure they don't negatively impact my property including walls.</p> <p>Lastly, if approval for any works is given I would request hours of noisy operation to be between 0900-1700 Monday-Friday, 1000-1300 on Saturday and none on Sunday and Bank Holiday.</p>
2025/0902/P	Roger O'sullivan	1 Falkland Place Kentish Town NW5 2PN NW5 2PN	01/05/2025 15:19:34	COMMNT	<p>Objection as this is out of character with local area and effects the overlook and privacy of the rear of my property as it overlooks the garden effecting privacy sunlight and local trees</p>
2025/0902/P	Susan	12 Falkland Road	01/05/2025 14:12:19	OBJ	<p>I object to the proposed 2-storey rear extension because it will be an overbearing and imposing structure on neighboring gardens like ours. It will obstruct our view of the trees and lush vegetation in the surrounding gardens (we'd see a brick wall instead) and create unwanted shade in our own garden. Our decision to purchase our home a few months ago was based partly and to no small degree on the sunniness of the garden and our view. The negative impact of the loss of sun and green space would be enormous.</p>
