2025/1669/P	Francoise Finndley	10a Elizabeth Mews, NW34TL	08/05/2025 11:00:03	OBJ	<p>Objection</p> <p>The garage at 57 Elsworthy Road is an unfortunate addition that predates the Conservation Area designation. The alteration of the door to aluminium louvres will not enhance the appearance or benefit the historic character of the street.</p> <p>The introduction of the boiler flues will also adversely affect the street scene. Can the flues not be directed to use the existing Willett chimney?</p> <p>As part of this application it is important that a condition be imposed for the reinstatement of the low front wall and the two drum pillars. They are important features of William Willett's design for front boundaries, the only remaining example on this street although there are others in Willett's Eton Avenue houses.</p> <p>Francoise Findley for BCAAC</p>
