2025/1698/P	Ray Levy	Flat 2 47 Platts Lane NW3 7NL	09/05/2025 18:28:55	COMMNT	<p>We have four objections.</p> <ol style="list-style-type: none"> <li>1. The additional traffic congestion which will be caused by this extensive building projects will be untenable for residents in Platts Lane and the Crofts which are already over crowded because of current restrictions and diversions. The house is also located on corner of Platts Lane and Ferncroft also directly opposite Briardale Gardens and with loading of lorries working on this site. It will impede visual ability to all vehicles.</li> <li>2. Many children live and go to schools in this area and crossing these busy roads will be more hazardous.</li> <li>3. Platts Lane is already known for it's under water streams raising the risk of flooding.</li> <li>4. I do not think that any houses of multiple occupancy ( four flats ) has the unquestionable right to inflict on it's direct shared occupancy neighbours all the inconvenience noise, dirt, and general disruption that this proposed project this will cause. I would respectfully suggest this type of project be limited to houses of single occupancy.</li> </ol>
2025/1698/P	Mrs.J. Rochman	Flat 2 2 Ferncroft Avenue NW3 7PH	10/05/2025 11:37:44	COMMNT	<p>How will this affect next door at 2, Ferncroft Avenue? apart from the noise and dirt it will cause. What comments have been made by other flat owners in this building? Will it include the removal of the rather ugly pine tree that drops resin, needles and cones, as well as the pigeons' defecations all over the footpath as well as my car? I don't think neighbours have been considered.</p>
