The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning

(Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Location Plan; Secondary Glazing Product and Performance Guide (Selectaglaze Technical Document); Third Floor Rear Elevation, Existing Condition (Photographs of existing rear windows); 03 Front Elevation Existing Secondary Glazing (Photographs of front windows with secondary glazing installed); 04 Design And Access Statement.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent:

No. 69 Albany Street is one of a terrace of 8 houses built in the early 19th century. Albany Street is located within Regent's Park Conservation Area. The terrace, 4 storeys plus basement, built in yellow stock brick, is Grade II listed. The terrace was rebuilt in part in the 20th century following bomb damage during WWII.

Built originally as a single-family dwelling, the planning history is silent on the subdivision of the property into flats. Flat C occupies accommodation on the second and third floors of the building.

This application seeks permission to install Slimline Series 45 internal secondary glazing from Selectaglaze on a single window to the rear.

Prior to 2020, secondary glazing (Slimline Series 45 from Selectaglaze) was fitted to all windows on the front elevation by the previous owner. There appears to be no consent granted for this work. For consistency of appearance, permission is sought for the same make as it has been shown that this model suits the property well in terms of style and detailed design.

This proposal is for internal works to a Grade II listed building. In line with the Statement of Community Involvement the application was not publicised as there is no statutory requirement to consult.

The site's planning history has been taken into account when making this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
