2025/1683/P	Michael Bruscini	40 Vesage Court 8A Leather Lane  EC1N 7RE	19/05/2025 11:16:30	OBJ	I strongly object to this application on the grounds of misinformation. The applicant does not explain that by extending the height by 4 to 5 storeys, this will disrupt the landmark viewing corridor of St. Paul's Cathedral. I am also objecting to yet another redevelopment scheme in the immediate vicinity. My home is now surrounded by large redevelopment schemes. They are only adding to more pollution, traffic and noise in the area. All these add to health issues for Camden residents who have to deal with on a daily basis.
2025/1683/P	Susan. Smith	58 Vesage Court, , 8a leather lane ec1n7re  EC1N 7RE EC1N 7RE	19/05/2025 11:07:40	COMNOT	I object to this application 1, this is yet another office development sneakily unnecessarily going up in height and completely ignoring the Landmark viewing corridor to St Paul's. If the permission is given to do this I believe future generations will question why we treated our historical jewels with such irreverence. 2, All these increasingly high office blocks are creating dark gloomy wind tunnels which is what anyone who actually lives in the area is left to put up with. Light & being able to sit on a local bench is harder to do now as these tall buildings make everywhere windy. In the plans lots of token landscaping is put up on recesses in the buildings but these are of no benefits to residents when they are up in the sky. Camden need to consider carefully before setting a precedent for all office blocks to do this
