2025/1375/P	Melissa Danbury	15 Chetwynd Road NW5 1bx	26/05/2025 16:00:05	OBJ	<p>I strongly oppose this development. The proposed building is too high and not in keeping with the character of the neighbouring houses, or the overall character of the Dartmouth Park conservation area. It also has a bigger footprint than the existing dwelling, which makes it far more intrusive than the existing building. In my view this represents overdevelopment. The replacement building should be lower and less bulky. The recent Swains Lane development is a good example of sensitive development. This proposed building is not in my view a sensitive development.</p> <p>On a personal level, it will negatively impact me and my family - it will affect the view from the back of our house causing reduced light and increased noise.</p>
