2025/1205/P	Caroline Formstone	21 Netherhall Gardens Hampstead London NW3 5RL	28/05/2025 18:33:05	COMMNT	<p>Camden Council must be aware that the residents at number 19 Netherhall are absent due to a fire in the top floor flat. Camden must ensure that the residents of the basement flat at least have been able to respond to the recent planning application as the erection of this building may affect their rear boundary with number 14 Frognal.</p> <p>This building is at the rear of my building on Netherhall Gardens. The existing plans presented show a large window at roof level rear of the property. Camden should check the original deeds for this house as it is architecturally the same building as its neighbour, which has no such large window at the rear roof level. This is a new window therefore for which I cannot find planning permission. No other neighbouring property has a roof level window of this size. As it sits directly opposite my rear bedroom window and I find it intimidating in its size, I would certainly have opposed planning permission on this basis.</p>
