

Application N	Consultees Name	Recipient Address	Received	Comment	Response
2025/1805/P	James Hunt	40 Hemstal Road NW6 2AJ	28/05/2025 16:17:45	OBJ	<p>This opportunistic, unsuitable application should be refused for the following reasons:.</p> <p>It has an aggressive, disruptive impact on the existing, surrounding properties both beside and opposite the address - adding nothing to anyone but the owners.</p> <p>The materiels - lumber and iron railings are inappropriate.</p> <p>There is no effort to moderate the significant loss of light & noise levels such terraces will cause.</p> <p>The daylight sunlight analysis only deals with 1 single neighbouring property at No. 32 Lowfield and totally fails to consider any other dwelling which will certainly be affected.</p>
