Dear Mark,

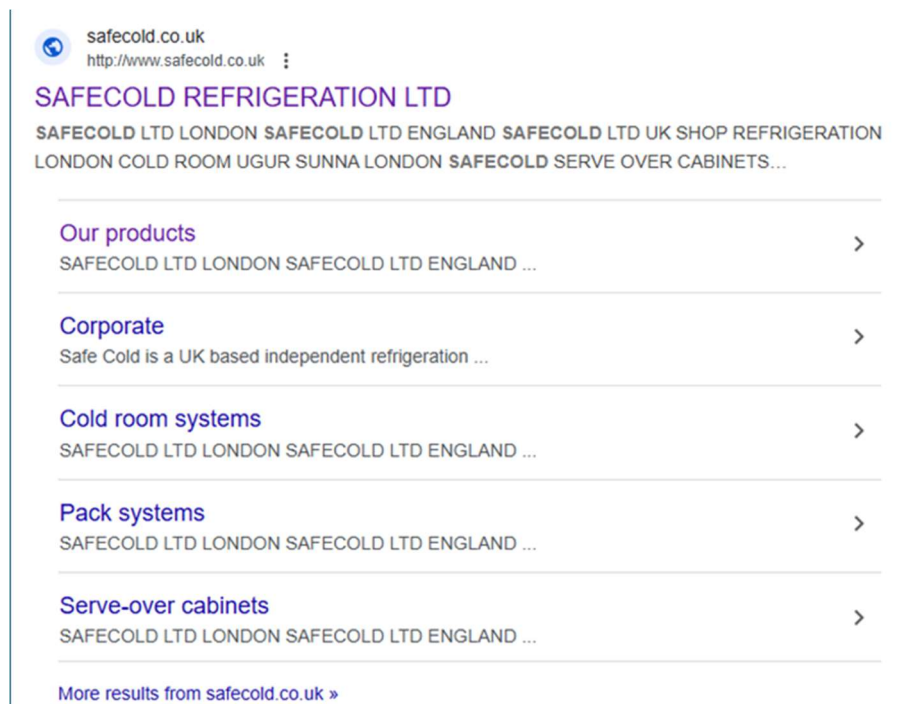

1-3 ALEXANDER HOUSE, NETHERWOOD STREET, LONDON, NW6 – REFRIGERATION QUERY

We have attempted to contact Safecold Refrigeration Ltd, but have not had a response regarding the make/model of these units.

We don't envisage they will be able to state this succinctly, as they are involved in manufacturing and assembly of bespoke units.

We believe the units in question are chiller units, as the company does not list air conditioning units under its services.

Please see these images from the internet search, below:

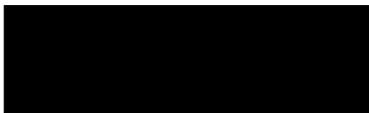

From Safe Cold Ltd

"At Safe Cold we aim to provide our customers with the best nationwide commercial refrigeration services, Safe cold has been a United Kingdom, London area favourite since 2007, providing a wide range of services to its customers which include, wide range of commercial fridge installations, maintenance & servicing along with shop-fitting.. With all our experience in the field of refrigeration Safe Cold caters for all types of businesses no matter how small or large your company may be. At Safe Cold our main aim is too provide our customers with first class services, aiming to understand customers requirements and needs, trying to provide fast and cost effective solutions, with a range of high quality fridges and cooling cabinets."

They appear to just be refrigerant providers.

Further to this, we believe your client should be able to inform you of their use.

Yours sincerely,

Ben Dixon BA(Hons), MIOA, ACIEH
Principal Acoustics Consultant
