2014/1758/P	Mr Andreas EF Utermann	13 Bracknell Gardens  NW3 7EE	14/03/2014 17:37:53	OBJ	<p>This application should be rejected with respect to the dormers.</p> <p>The erection of two massive dormers fundamentally alters both front and rear views of the property and can easily be seen from the front and back of the house. the houses number 9,11,13,15,17 form one architectural style and this, in a conservation area, should not be altered to this extent.</p> <p>Indeed, when we made our alterations to our house we were strongly advised by this [planning department that nothing would be permitted that was visible from the street or back gardens.</p> <p>It goes without saying that the dormers will also reduce the light for adjoining properties and look ugly also.</p>
