2014/0831/P	Mr Michael Romberg	Flat 7, Maxclif House Tottenham Street London	27/02/2014 18:08:33	OBJ	<p>My main concern with this application has been that its excessive height would make the streetscape especially from Goodge St unpleasant for residents and pedestrians.</p> <p>I therefore object to the proposal. If the building has been allowed by the appeal process to be of this height, then the upper floors should be stepped back further from the road. to allow more light and view.</p>
