2014/1037/P	Mr Jonathan gestetner	7 Oakhill Ave NW3 7RD	28/02/2014 14:59:12	COMMNT	We have lived at 7 Oakhill Avenue for over 40 years. 10a is a house with no architectural merit and the replacement proposed will be a great improvement on what it replaces. We support the application to build a building with 5 flats as proposed

I recently noted the above application for the new development at 10a Oakhill Avenue, NW3, which interested me for obvious reasons. Further to this application I wanted to give my support to the aforementioned scheme. The existing property, the new scheme is due to replace, does not offer anything pleasing aesthetically to the local area and I regard it as not in keeping with the other neighbouring properties. I feel that the new scheme put forward is definitely a big improvement and is more attractive building , and in keeping with the neighbouring properties and local area. I also do not believe the proposed scheme will affect the parking in the local area due to No On street parking being required, as the project provides underground spaces on site. > > Your sincerely, > > Mr Michael Becker
