2013/6745/P	Miss Shanel S Spence	111b Chetwynd Road London	26/02/2014 17:14:59	OBJ	I would welcome a new restaurant but have the following concerns. It should close at 23:00 not midnight. Don't agree with any opening windows and definitely don't agree with the new fenestration on Twisden Road - due to possible noise and smell pollution. No confirmation of refuse/recycling storage internally please advise. I would hardly call this area a High Street?!

2013/6745/P	S & W Paul	72 Twisden Rd	26/02/2014 19:40:28	COMMNT	Most of our objections have been covered by previous comments, however the outstanding issue of lighting has not been addressed. We would object to any illuminated signage using fluorescent tubes and any strip lighting that would extend onto Twisden Road farther than what is already in place.
