2014/0968/P	Ms Janine Griffis	14 Denning Road NW3 1SU	21/02/2014 13:05:49	COMMNT	<p>On behalf of the Pilgrim's to Willoughby Residents Association, I object to the loss of original railings and, additionally, to the use of a front garden as parking space. As stated in the Conservation Area Statement, "where historic railings survive they are very rare indeed and should never be removed, but sensitivity repaired, and reinstated where lost. Boundary walls, hedges and railings all help give the area its serene and respectable charm, and by restoring them where they have been removed, residents can restore the attractive qualities of the streetscape for residents and passers-by."</p> <p>The corner garden is a sensitive site, located adjacent to the Grade II Listed Willow Cottages with their uniform line of boundary walls. The railings should be restored to the original configuration. Furthermore, permission to use this area as a car parking space (see: 2013/7388/P) should be refused.</p> <p>We urge the Council to refuse this application.</p>
