2014/0342/P	Miss Agnes Kory	6 Frogmal Court 158 Finchley Road London NW3 5HL	08/02/2014 16:37:39	OBJ	This application has come up several times in the past. Objections to it remain the same as previously submitted. Natural light to my flat would be diminished. Increased number of people on the Estate would cause increased noise, increased pollution (including increased refuse) and unmanageable increased traffic. Frogmal Court is built on the top of a railway tunnel: our blocks shake each time a train passes; additional weight on the block could result in tragedy (including loss of life).
