

**13 FREDERICK STREET, LONDON WC1X 0NF**

**DESIGN, ACCESS & HERITAGE STATEMENT**

The Planning and Listed Building applications relate to the upper maisonette (separate applications have recently been submitted for the basement and ground floor flats).

## **1. Site Analysis**

13 Frederick Street is a three-storey basement terrace property, with basement and attic floor, built by William Cubitt during the first half of the 19<sup>th</sup> Century (c.1830). It is Grade II listed and is in the Bloomsbury Conservation Area. It is located on the southern side of the street.

Extracts from 'Bloomsbury Conservation Area Appraisal and Management Strategy'  
– Adopted 18 April 2011:

*Calthorpe Street/Frederick Street.*

*This sub area is situated on the eastern edge of the Bloomsbury Conservation Area, east of Gray's Inn Road, and abuts the boundary with the London Borough of Islington. It comprises an area of mainly terraced housing built on the Swinton and Calthorpe Estates to the east of Gray's Inn Road, an historic route dating back at least to Medieval times. It is one of the few parts of the Conservation Area that has a noticeable fall from west to east, being on the west side of King's Cross Road which follows the valley of the now culverted River Fleet. The northernmost part around Swinton Street was developed in the late 18th century following the construction of New Road (now Euston Road) and a small suburb to the north of this area around Battle Bridge. The remainder of the area was developed over the period 1820 to 1850 by the builder Thomas Cubitt who had his yard in this area. A notable pattern is the progression of development from west to east and the gradual variation in the detailed treatment of the frontages. In the 1860s the excavation for the new Metropolitan Railway cutting bisected Swinton Street and Acton Street towards their eastern end.*

*Most of the buildings in this area date from the 1820s to the 1840s, and were designed and built by Thomas and William Cubitt. 19th century development progressed from west to east, although there have been some areas of post-war redevelopment. There is slightly greater use of stucco render in these quieter streets. There is generally a grander, classical approach to the overall composition of elevations, which boast pilasters, pediments and projections, emphasising the design of the terrace as a single composition (particularly evident on Frederick Street). Several terraces in this area have entrance porticos at street level giving greater architectural significance, a feature not seen in the streets to the north.*

The property is part of a portfolio acquired by Community Housing Association in the 1970's in Frederick Street, Ampton Place and Ampton Street.

13 Frederick Street was converted during the 1980s into 3 units: basement and ground floor one-bedroom flats and an upper maisonette.

## **2. Development Objectives**

One Housing Group is intending to carry out a series of repairs and improvements throughout the majority of their properties in the immediate vicinity (i.e. Frederick Street, Ampton Street and Ampton Place). Generally, the works will consist of the

essential renewal of the services (mechanical and electrical installations), kitchen fittings and bathrooms together with all other necessary repairs. Improvements to the internal layouts of the maisonettes, flats and bedsits may also be proposed on a property-by-property, unit-by-unit basis.

### **3. Design Solution and impact on heritage assets**

Sash windows to the second floor are to have secondary glazing (no shutters or shutter boxes).

The proposed alterations are quite minor in nature and discreet and will therefore have no adverse impact on the listed building. They do not harm the building nor do they affect any original features, they are largely reversible and will positively contribute to the stock of housing in the area by improving the quality and standard of accommodation available.

### **4. Access**

There are no proposed changes affecting the access arrangements.

### **5. Affect on neighbours**

The proposals will have no affect on neighbours.

### **6. Appendix**

English Heritage List Entry Summary for 9-27 Frederick Street.

# List Entry Summary

This building is listed under the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended for its special architectural or historic interest.

**Name: NUMBERS 9-27 AND ATTACHED RAILINGS**

**List Entry Number: 1322170**

## Location

NUMBERS 9-27 AND ATTACHED RAILINGS, 9-27, FREDERICK STREET

The building may lie within the boundary of more than one authority.

**County:** Greater London Authority

**District:** Camden

**District Type:** London Borough

**Parish:**

**National Park:** Not applicable to this List entry.

**Grade:** II

**Date first listed:** 25-Oct-1971

**Date of most recent amendment:** Not applicable to this List entry.
