2013/7390/P	Miss vera bohl	30 oval road NW17DE	09/01/2014 16:19:42	COMMNT	<p>The Henson is a prestigious new development comprising of 46 flats, and an office space on the ground/lower ground floors. The entrance to the residential flats and the office are side by side. The shutters are used when the office is closed i.e. evenings and weekends.</p> <p>However the shutter gives the building a &quot;warehouse&quot; type look which is not in keeping with the standard of the building. This is unsightly and may affect our property prices. Also shutters are likely to attract graffiti at some point.</p> <p>Rather than this solution which achieves the aim of the company in achieving security but is to the detriment of the residential block, a better solution should be used that both achieves security and is not disadvantageous to the residents.</p> <p>An example that is commonly used is the use of a company like Sureguard which coats windows in vandal and bombproof plastic. This would achieve their security needs and preserve the prestigious character of the residential block.</p>
2013/7390/P	Mr Michael Nathan	Flat 32 The Henson 30 Oval Road London NW1 7DE	09/01/2014 15:53:33	OBJ	<p>The Henson is a prestigious new development comprising of 46 flats, and an office space on the ground/lower ground floors. 2013/7390/P	Mr Henry De'Ath	93 Moriconium Quay BH15 4QP	09/01/2014 20:04:13	OBJ	<p>I object to the proposed shutters which will devalue the property, both aesthetically and financially to its residents. Other security options are available, and certainly more desirable ones. I hope these will be explored in lieu of this unwelcome proposal.</p> <p>I own Flat 28</p>

2013/7390/P	Mr Michael Goldman	Apt 43 The Henson Building 30 Oval Road London NW1 7DE	09/01/2014 13:45:56	OBJ	<p>I am a resident of the Henson Building and I am against the shutters remaining in place. I think they are unsightly and imply that the area is unsafe. It negatively impacts on the overall aesthetics of the building.</p> <p>Jim Henson created the Muppets at this building, it is a landmark building with historic value and should therefore be preserved. There are many alternative ways to protect the office premises whilst being considerate and sympathetic to the building and its heritage. The shutters that are currently in place should be changed in order to maintain the character of the building.</p>
