2013/7585/P	Mr Michael Jennings	41 Gondar Gardens  NW6 1EP	09/01/2014 09:33:00	OBJ	I am disappointed that the revision of this scheme hasn't taken into account the planning inspector or local resident's views. The frontage is still not in keeping with the character of the adjoining properties with respect to colour of brick, nature of the windows or roof line. There is an opportunity here to create a distinctive design in sympathy with the Victorian nature of the surrounding area. This is not that. In particular the newly introduced glass balconies are an eyesore and will produce a mirror-like effect and reflect sunlight directly into the gardens in Sarre Road properties while creating no useful living space within the flats. Indeed being west facing and glass enclosed they will become mini hothouses (there is direct experience of this in a recent development in Fortune Green). The angular block structure of much of the property is still far too aggressive compared with the adjoining properties.
2013/7585/P	Mrs Margaret R Newman	4 Agamemnon road West hampstead  NW6 1DY	30/12/2013 19:02:37	OBJ	<p>I think it is a sham, to destroy a wildlife haven that is much needed and why not build a wildlife to teach today's children about the value of animal and plant life. Instead of another overpriced, overcrowded development that only the rich can afford!!</p> <p>Is there not enough problems with the parking, rubbish collection, traffic jams and general overpopulation of this area and another three buildings of the same dimensions that will have an detrimental effect on the neighbourhood without this one needing to add to the problem.</p> <p>It is time this plan as it is for a modern, expensive development which does not benefit anyone apart from the developers pocket.</p> <p>Please do not allow another beautiful wildlife haven to be destroyed as it will kill much of the wildlife in this area and cause nothing but heartache and sorrow for future generations if we let this go ahead.</p> <p>Not to mention the safety of our children and animals with the increased traffic. Also the designs so not fit in with the local area and when I co</p>
2013/7585/P	Miss Amanda J Newman	4 Agamemnon road West Hampstead London  NW6 1DY	30/12/2013 19:01:10	OBJ
