| Observations | ADVICE from Primrose Hill Conservation Area Advisory Committee 12A Manley Street, London NW1 8LT 4 December 2013 5 Sharpleshall Street 2013/7037/P + 2013/7086/L We note that the front elevation has important survivals of the original design of these houses as shops. These include the specially significant lower ground floor windows, which need special regard. We welcome the retention of this window in this application and are concerned to ensure its full preservation including its glazing bars and details. We are concerned that there should be no problems of overlooking from the use of the main roof as a roof terrace, and that any sight screens required should not harm the visual consistency and unity of the whole terrace.
