<p>Outcome</p> <p>Initially sought pre-application advice from the LPA on 01/11/2013, followed by a further request on 08/11/2013, followed by a further request enclosing a photographic montage on 11/11/2013. At the point of application, the Authority has not provided any comment to the pre-application requests. Given the withdrawal of the previous application (2013/3207/P) in order to redesign with a more sympathetic proposal and the lack of reply from the Authority, it is therefore assumed that the redesign is more to the Authority's requirements and that they are happy for the application to be submitted.</p>
