Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

1. Lime Tree at the front of the property - reduce by 30% in height and spread (or by 4 meters in height).
 2. Poplar Tree at the very rear of the property (behind private garden) to reduce the front stem to previous reduction points.
 3. Lime Tree at the very rear of the property - crown cleaning
 4. Poplar Tree at the very rear of the property - reduce the rear stem back to previous reduction points, approx. 10m.
