2013/5667/P	05/11/2013 18:46:45	SUPPRT	I am in full support if the application and look forward to using the facility as a family on the weekend.
2013/5667/P	05/11/2013 09:21:58	COMMNT	This is a very welcomed initiative, as the area lacks of dedicated areas for children to play or practice sports.
2013/5667/P	05/11/2013 21:43:04	SUPPRT	This will be an invaluable resource for the local schools
2013/5667/P	05/11/2013 11:36:36	SUPPRT	It sounds great. I would love my kids to have access to such facilities within walking distance of the house or school as a matter of facts.
2013/5667/P	05/11/2013 11:42:06	SUPPRT	I support this application as it will prevent the children from having to go to an external play area.
2013/5667/P	05/11/2013 10:23:21	SUPPRT	This would be a great project, a service to the local community. A facility like this for recreation, sports would be beneficial for Kentish town.
2013/5667/P	05/11/2013 09:16:24	SUPPRT	This would be great for the local community as we are currently lacking such sports facility in the area. It would not only benefit the CFBL (one of my children currently attend this school) but also its partner for this project, QCCA, a community association. The CFBL has already contributed a lot to make the area more dynamic, I'm convinced this project this will allow us to go further. I'm really supportive of this project.
2013/5667/P	11/11/2013 14:30:53	SUPPRT	I am a Governor at Carlton Primary School and would like to support the application. The area needs all the amenities it can have for the youths and young people and this new play centre will go a long way to providing a place for youngsters to use.
2013/5667/P	13/11/2013 15:10:21	SUPPRT	This is an excellent idea and will benefit so many local people. I thoroughly support this imaginative and practical proposal.
2013/5667/P	13/11/2013 13:12:48	NOBJ	Looks like an excellent use of this property. The wider community will be able to enjoy it and the children will love it.
2013/5667/P	13/11/2013 19:03:59	SUPPRT	I support this wholeheartly - a good idea and well worth doing.
2013/5667/P	15/11/2013 07:50:32	SUPPRT	A very much needed facility and I therefore fully support this proposal.
2013/5667/P	13/11/2013 08:02:09	SUPPRT	I think this is a fantastic initiative, that will provide much needed additional community space with structured activities and events. The plans I saw at the drop-in consultation looked marvellous. I wholeheartedly hope that this project goes through!

2013/5667/P	11/11/2013 21:27:06	SUPPRT	As Vice Chair of the board of governors at Carlton Primary School, mum to Jack, aged 7, a pupil at the school, and to Josh, aged 2, I very much support the proposals. My children, and others, will benefit immensely from these facilities and I believe they will also have a hugely positive impact on Queens Crescent, encouraging more families to use the area and helping the further regeneration of West Kentish Town.
2013/5667/P	11/11/2013 20:06:31	SUPPRT	Not only would the community benefit in the evenings and our children would have a safe place to go, but the school would really benefit from a covered sports centre to deliver high quality PE in the school day. We have two halls but in inclement weather we are restricted as to how many classes can take part in afternoon sports. Our mornings are protected for basic skills and maths/literacy/reading, so it would make a huge difference if we could have access to such a space.
2013/5667/P	12/11/2013 13:14:56	SUPPRT	I very much support this proposal. The provision of more facilities for sports and other activities is needed both for physical health and all sorts of social and community reasons.
2013/5667/P	14/11/2013 08:06:04	SUPPRT	As head teacher of the local primary school, I fully support this planning application. The local children need somewhere safe to play in their local community. I would be very interested in using the space for our children during the school day - we are constantly seeking ways to fulfill our enhanced healthy schools targets and this would be another ideal opportunity.
2013/5667/P	14/11/2013 18:49:39	SUPPRT	I fully support this proposal as it will benefit many of the community.
2013/5667/P	04/11/2013 23:03:06	SUPPRT	It is a great idea!  Sports are one of the best way to help children and teens to develop their social skills and to learn to improve themselves.  Cecile de Toro Arias
2013/5667/P	04/11/2013 23:02:04	SUPPRT	It's a fantastic project, which will serve a lot of needs in the same time and benefit to a lot of people. It's an excellent way to use a big empty space full time and make the most out of it, in a positive and constructive way. It will be useful and regenerate an area which is in urgent need of such structures, especially with new developments and growing population. And it will be self sufficient.
2013/5667/P	05/11/2013 12:08:31	SUPPRT	I am a Camden borough resident and this would be a wonderful addition to our community. I welcome it and it would encourage, sports, health and wellness for the borough of Camden.
2013/5667/P	05/11/2013 12:56:06	SUPPRT	I live in Camden with my family (3 children) and all of my children go to school in Camden. I think it will a great improvement to have more sport facilities in this neighbourhood.  I am in complete support of this application.

<b>Application No:</b>	<b>Received:</b>	<b>Comment:</b>	<b>Response:</b>
2013/5667/P	05/11/2013 10:53:26	SUPPRT	That's a great projects! We leave in Camden and we have 3 children, so we are be very excited by this new project.
2013/5667/P	05/11/2013 10:49:05	COMMNT	It is a great opportunity to improve the sport facilities in the area and to add value to Kentish town. We are supporting this application.
2013/5667/P	03/11/2013 09:51:10	SUPPRT	Vicars rd RA would like to support the above application. There is a clear demand for greater sports facilities in the Gospel Oak area as demonstrated by the success of Talacre sports hall whose courses are often full and over subscribed. This application would provide affordable sports facilities to an area currently under provided for and with a large youth demographic. Also, it seems like a good use of space and an elegant reconfiguration of the existing layout.
2013/5667/P	05/11/2013 10:34:21	SUPPRT	Any initiative to encourage physical activity for children must be encouraged. The proposal includes some greenery, which is an added benefit in a very urban environment.
2013/5667/P	05/11/2013 09:36:49	SUPPRT	we support this proposal as it will contribute to the currently limited facilities for children. it is great that the play centre will be available for the community. we also feel that the area has improved since the French school has opened and is taking interest in the area.
2013/5667/P	05/11/2013 08:21:50	SUPPRT	I think this would be great for the community in a neighbourhood that could use more stimulation and positive developments. Also like the cultural exchange dimension. This can only be a good thing for Queen's Crescent and it shows that the French school really wants and tries hard to be part of the community. We should embrace this as an opportunity. This could be developed into an exciting venue for inter-school sports as well as an additional sports, dance and cultural active hub for everyone. I believe public/community spaces like these are essential for a dynamic social cohesion, especially in a time of radical cuts on any form of social policy. An exciting project!
2013/5667/P	05/11/2013 08:20:59	SUPPRT	This is a fantastic project. Sporty kids are healthy kids.
2013/5667/P	04/11/2013 12:11:17	SUPPRT	This would provide valuable updated indoor sports facilities which can be used throughout the whole year by a school and community alike. The area would benefit hugely from this initiative to encourage sport within the community. Sport increases a sense of cooperation and academic ability as well of course encouraging a more healthy lifestyle.
2013/5667/P	05/11/2013 14:36:25	SUPPRT	It would be incredibly valuable for my daughter's school (CFBL) as well as for the wider Camden community to have a mixed-use facility for sports. Out of my 4 children, only one is going to CFBL, but I still think this would be valuable for everybody.
2013/5667/P	05/11/2013 13:53:21	SUPPRT	Thank you very much for such a great idea. My children will be able to go there and play whenever the weather is good or not.
2013/5667/P	05/11/2013 09:41:14	SUPPRT	I am looking forward to this project which will bring a lot to the community and the kids.

<b>Application No:</b>	<b>Received:</b>	<b>Comment:</b>	<b>Response:</b>
2013/5667/P	05/11/2013 09:08:36	COMMNT	This sounds fantastic!
2013/5667/P	05/11/2013 08:44:18	SUPPRT	This project would benefit helping the school and the Queens Crescent community. It would be used by both very different communities in a sports thus healthy environment, I see it as a great opportunity to mix, maybe to organize sporting events between both. It is also a way for the french children to walk around their school with a purpose, instead of just sitting on a bus being shipped from one place to another. This is a way for them to get familiar with the landscape in Kentish Town and become aware of their urban environment, and have some interaction with it.
2013/5667/P	05/11/2013 08:43:27	COMMNT	This is a fantastic initiative which will benefit the whole community and notably the younger generation who need access to more areas like this.
2013/5667/P	29/10/2013 14:30:19	SUPPRT	I fully support this project. With cost cutting all over the country, not much funding is left for sport facilities for schools and local communities. This projet will give a good opportunity for the local community to benefit of a new sport facility. As a joint project with a local school it will also hopefully bring various communities within a same neighbourhood closer together. Finally, I hope that projects like these will be valuable initiatives for the regeneration the neighbourhood.
2013/5667/P	05/11/2013 08:25:16	COMMNT	Great idea. Fully supportive.
2013/5667/P	28/10/2013 22:42:14	SUPPRT	I am in favour of this play centre. I think it would be great for the community to have a sport centre. I think a shared used with a local school is a good set up to optimize the use of the facility. It will increase the interest in the neighborhood.
2013/5667/P	06/11/2013 15:24:54	SUPPRT	I wish to offer my support for the full planning permission. An improvement of play facilities is always of great benefit to children in Camden, regardless of what school they go to! It would benefit the community at large.
2013/5667/P	05/11/2013 10:16:07	COMMNT	This is great news!This new sports/play facility will provide a great service to the local community and all children.
2013/5667/P	30/10/2013 10:03:07	COMMNT	We are strongly supportive of this application. We believe that it will bring great benefits to all in the local community.
2013/5667/P	13/11/2013 10:37:18	COMMNT	This proposal seems an excellent idea and good use of a currently wasted, unused building.

<b>Application No:</b>	<b>Received:</b>	<b>Comment:</b>	<b>Response:</b>
2013/5667/P	05/11/2013 10:12:30	COMMNT	Amazing proposition! Finally an extra space in Camden for our kids to play and do sport!
2013/5667/P	05/11/2013 10:11:03	NOBJ	it would be usefull for the school and children
2013/5667/P	05/11/2013 10:08:38	SUPPRT	It's a very good project lead by CFBL providing a service for the children of the school and for the local community. It's a win win project.
2013/5667/P	05/11/2013 08:01:19	SUPPRT	I think this is a good idea as it gives the school an enclosed, bigger player area. This means less traffic of children walking around the streets going to their exterior play area. I welcome the addition the school brings to the area, a real multi-cultural feel.
2013/5667/P	06/11/2013 09:24:42	SUPPRT	I think this would be a very positive thing for the community. A new sport facility would help keep children and adults alike fitter, and we know overweight and unfit children and adults is a major and growing health concern for the country. It also helps keeping kids and young people out of potential trouble. And there is no particular nuisance associated with it. I strongly support it.
2013/5667/P	07/11/2013 15:02:28	SUPPRT	This is a great idea. I'm giving my support to this project as it will provide a great service to the local community.
2013/5667/P	06/11/2013 08:35:20	COMMNT	The play centre would be a much needed addition to the local sports facilities for Camden school children.
2013/5667/P	05/11/2013 22:12:20	SUPPRT	It would be great to have another local play / sport centre that could be used in all weather. Camden needs more of them!
2013/5667/P	05/11/2013 22:09:10	SUPPRT	This project would be a great opportunity for everyone and not only the french school.
2013/5667/P	05/11/2013 09:10:24	SUPPRT	We think that the new facilities will complete the sports offer of the area. Since we have kids at school age we are very interested in this project and support it.
2013/5667/P	05/11/2013 13:37:56	SUPPRT	It would be really nice to have a sport structure that can benefit to pupils of the French schools next door an the local community as well.  Sport facilities in Camden are really appreciated: Talacre, prince of whales sport centre and swimming poll are great options but it will be a major plus to extend the range of sport services in the neighbourhood.
2013/5667/P	07/11/2013 22:39:03	SUPPRT	This would be a great addition to the neighbourhood and enhance the play facilities available for local children. I am fully supportive of this application.
2013/5667/P	05/11/2013 21:41:26	COMMNT	it is a great project and will be very beneficial for our children.
