Planning application address..... 2013 / 5540 / P

I support the application (please state reasons below) ☐

I object to the application (please state reasons below) ☐ } no comment ☐

Your comments

1. Recent building work seems to have affected the main sewage system which we believe is interlinked. This must be thoroughly checked and not blocked - we have had several issues with blocked drains - through no fault of our own.
 2. Parking space needs to be respected and not blocked by lorries - space already at a premium.
 3. Recent building work ^{also} seems not only to have affected the drains, but also driven more mice and rats down to us - pest control officers need to check the whole area to keep them in check and prevent further nesting and breeding.
 4. Because of my profession I am often "on night" and do need relative quiet during the day so I would ask that work should be strictly carried out during the hours of 8.30am to 4pm and no work at weekends.
- So in summary drains
parking
mice + rats + noise
- thank you
