Existing boundary wall to No 10 Lawn Road is a mixture of old and new brick types with some rendered sections and different mortar pointing and colours. Demolish and rebuild existing wall with alterations to width of vehicular access gate, pier sizes and reinstatement of presumed original white painted pier capping stones. Adapt existing dark stained infill screens above brick wall to suit. Replace existing vehicular gates with new black painted electrically operated timber boarded sliding gate as detail. Existing different brick types to be replaced with consistent London Gault brick, as sample submitted, to match other original bricks used for similar walls along Lawn Road. Pier caps to be formed of reconstituted stone with size and mouldings to match existing elsewhere along Lawn Road.

Brick pier between 9 and 10 Lawn Road capped if permitted by owner of 9 Lawn Road

Shared brick pier between 10 and 11 Lawn Road capped if permitted by owner of 11 Lawn Road
