	Notes:
Patterns	
al Balustrade	CDM Regulations Design Risk Assessment:
	The size and shape of individual stones for this project have been designed to
	satisfy the overall design requirements for the building. All persons handling and installing such stones should be aware that there are risks associated with this
	type of work that cannot be designed out.
	RISK: INJURY Risk Reduction:
	Fixers must be suitably experienced in the handling of stones and employ lifting methods appropriate to the size and shape of that component. Access and
	platforms must be to the standard required by current legislation. Reference must always be made to COSSH information for the materials being
	used.
