#### 1. Do not scale. 2. Tolerances -3mm/+3mm.

3. All cast in sockets are stainless steel, therefore stainless steel bolts are required in all cases. Isolation washers will need to be implemented where galvanised steel occurs. 4. Torque setting for standard M8 ST/ST cast in sockets is

### CDM Regulations Design Risk Assessment:

10.6Nm.

The size and shape of individual stones for this project have been designed to satisfy the overall design requirements for the building. All persons handling and installing such stones should be aware that there are risks associated with this type of work that cannot be designed out. RISK: INJURY

## Risk Reduction:

Fixers must be suitably experienced in the handling of stones and employ lifting methods appropriate to the size and shape of that component. Access and platforms must be to the standard required by current legislation.

Reference must always be made to COSSH information for the materials being
