2013/5256/P	Kentish Town West Station Prince of Wales Road London	Rob Tulloch	John Nicholson Kentish Town Neighbourhood Forum	03/09/2013 13:28:40	COMMNT

**Response:**

On behalf of Kentish Town Neighbourhood Forum I would like to request that approval of the extension to the platforms at Kentish Town West is conditional on a guarantee from London Overground to improve access at this station. Kentish Town West along with Kentish Town underground and rail station are the 2 main transport hubs for those living and working in Kentish Town. Currently neither is an accessible station. Of the 2 Kentish Town West is the most straightforward option for being made fully accessible. While one acknowledges the cost of making facilities such as this accessible KTNF feels strongly that permission to extend the platforms (presumably an acknowledgement of greater traffic flow at the station) should be conditional on a timetabled plan for making the station fully accessible. The need for greater accessibility has been a feature of the public consultations undertaken by KTNF as part of the preparation for drafting our Neighbourhood Plan. Without a commitment from London Overground we would not support this application.
