**Comment:**

COMMNT

**Response:**

This is an excellent development and one that will enhance the appearance of the rear line of houses and gardens for the residents of Falkland Rd. I fully support this proposal.

**Response:**

I have consulted the planning details and also have visited the site; The plans will improve the the house and restore it in style. The house will be updated for more modern living, conserve heat through the installation of new windows. The house will be a more aesthetic through this refurbishment and as far as I can see would not be an imposition to the neighbours nor have any negative effect on the immediate surroundings
