Response:

I write concerning this application and would fully support the opening of this new Restaurant. Having been working in the area for over 15 years, granting and supporting Villa Bianca to expand here will only help the street, it will also benefit other in the street by bringing more revenue to the area. I understand from the application that it is to extend the current floor space and to seat customers and will not be used for cooking.

I look forward to spending time visiting the restaurant with our clients, friends and family.
