2013/4781/L	67 Grafton Way London W1T 6JB	John Sheehy	Mr Scott Wilson	02/09/2013 16:07:17	COMMNT
-------------	-------------------------------------	-------------	-----------------	---------------------	--------

Response:
The light green railings are a welcome addition to the Fitzrovia landscape. Their colour enhances the property and are perfectly in keeping with the many wonderful anomalies that permeate the local architecture.

The railings have been lovingly and professionally restored and are an example of excellent craftsmanship. They are appropriate to the Georgian period which they belong and should be heralded as an example to others who aspire to restore their properties.
