**Response:**

We have studied the plans submitted with this application. Although detail is given of the building itself we found it not possible to relate it to the adjacent area and in particular to our block of apartments which is immediately next door.

At this time the building line of 32 Jamestown Road is approximately 10 cm in advance of the building line of 34/36 Jamestown Road. Any projection over the canal beyond the current line including any balcony would alter the amenity we have experienced over the last 10 years and we would object to any such plan. We would ask for assurances with this respect and for full information.

Stan and Michele Dische

Apartment 11, 36 Jamestown Road, NW1 7BY

**Response:**

Neither the map nor the associated documents are available via the website as of today.

As a neighbour my main concern is the addition of extra floors and how that may impact our view from our terrace on the 5th floor canal side of Iceworks at 36 Jamestown Road. My understanding is that the developer proposes to extend the canal side although it is not possible to view the plans. If this is the case I wish to lodge an objection.
