Response:

Hi, I own one of the flats at 35 Fortess Road. This planning submissions is almost identical to a previous submission by the same people that was rejected.

We continue to strongly object – as with previous comments - the infill proposal would badly disrupt the rest of the Victorian Terrace and the scale, dimensions and materials (especially the zinc and timber) are still totally unsympathetic to, and inconsistent with, the existing Victorian frontage.

Many thanks.

William
