2013/3454/P	15 Camden Park Road London NW1 9AX	Rob Tulloch	Dr Chee-San Hau	23/07/2013 11:59:49	OBJ

Response:

We object to this application 2013/3454/P with reasons described below. The erection of the dormer with french doors and Juliet balcony will directly overlook our neighbouring rear garden and therefore affect our privacy especially when persons stand facing out of the balcony. The installation of two Velux roof lights is at odds with the rest of the Camden Park Road terrace where we believe no other houses have these Velux lights on their roofs. This will affect the appearance and character of the terrace in this part of the Camden Square conservation area. Finally, we believe there will be the negative impact of increased noise and disturbance from the expected increase in dwellers at No 15 if the sixth bedroom created from the installation of the rear dormer.
