Details of the pre-application advice received:

Dear David

Thank for your email and for forwarding the drawings. I confirm that as we discussed on site I am in principal happy to support the proposed works. I have considered the extent of the proposed works and while a considerable amount of the work could be considered repair there are clearly new elements which will be a departure from the existing in terms of design and material. As such I advise that a new LBC should be submitted to the planning authority. The attached drawings are clearly and informative and will be sufficient to make a formal application although a site location plan will also be required.

I understand the time constraints and will endeavour to determine your application as soon after the statutory consultation period as possible.

As stated I am happy to support these proposed works however I should also advise you that should you commence work prior to the formal decision it will be at risk. I hope this is of help and please get back to me should you need any further information.
