Yes No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1 Holm Oak.Reduce canopy by approximately 20%, reducing overlong branches by approximately 2-3m to form a more compact continuous canopy.
Thin throughout the canopy by 10%. Remove major deadwood exceeding 25mm in diameter.
The above works are to allow more light into the garden and maintain the current canopy size, and create a continuous canopy outline by bringing in overlong branches.
T2 Sycamore. Reduce canopy by height by approximately 4-5m. Due to dieback of one of the major stems. Reduce lateral branches by 2-3m.
A large section (stem) has died back within this tree. The proposed works are to remove the deadwood and then reduce the remaining stem to form a more compact balanced canopy.
T3 Sycamore. Reduce canopy height by 2-3m, reduce lateral growth by 3-4m.
The above works are to allow more light into the garden and maintain the current canopy size.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)
