Response:

The previous provision of 16 parking spaces required the felling of a large sycamore tree in order to extend the car park. The local area has recently suffered a large loss of trees with the Guinness Court development, the Barrow Hill reservoir replacement, the Barrow Hill flat developments, one St Edmunds Terrace tree vandalised and one knocked unsafe by a vehicle. Hence I am strongly in favour of not extending the car park at the expense of more trees. I am also in favour of adequate provision for waste recycling.

Thus I support the revised application.
