Response:

I am not particularly happy about the amount of light that is about to be lost from R4 and the view that I currently have of Swiss Cottage. I believe that there is also a underground car park to be built there and I want to be able to park there once it is built. I am also mindful of the amount of dust and dirt that will be around during construction and who will be responsible for cleaning the windows. There is currently no indication at what time the builders will start and finish their works. Given that they currently start around 5.00 am and leave when it gets dark.
