**Comment:**

COMMNT

**Response:**

Highgate CAAC wishes to object to this proposal. The result of this refurbishment of the Caf&#233; Rouge will be to make it far too dominant an element in the street scene at a very sensitive location where All the buildings are listed. The colour scheme proposed with one dark element in a terrace all light in colour is completely out of character and will be to the detriment of the CA. The changes to the frontage are not objectionable but we question the need for a 'themed' weather vane ; the nature of the restaurant is obvious without this.
