3. Description of the Proposal

Please describe the proposed development including any change of use:

This property consists of an office situated at ground and basement level, above there is a two bedroom flat on two storeys which is not owned by the client. The office space has been empty for the past two years and despite several attempts by more than one agent we have been unable to secure a tenant, this is largely due to the area no longer attracting business clients that are now migrating to our high streets.

We propose a two bedroom apartment at ground and basement level, and with the help of a local architect and designer create a modern residence that will blend well with the area, for this reason we are willing to retain any original features that the council wishes.

This part of Royal Collage St. has a mixture of retail, commercial, and residential properties and over the past years has seen many conversions similar to our proposal, for the most part these have been sympathetically completed and in no way detract from the charm of the surrounding street.

The area is near all transport systems, bus, rail, and tube with easy access to all of London and beyond.

It now seems certain that this property has no future as office space and before it falls into any type of disrepair we feel it will be best served by conversion to a modern home.

We have studied CGP5 6.4 and DP13 and we do not believe we are in conflict with any of the criteria therein.

Following any positive decision a full set of workable drawings will be produced for your attention.

Has the building, work or change of use already started? Yes No
