2013/1210/P	4 St. Augustines Road London NW1 9RN	Rob Tulloch	Ms Margaret Harvey	[REDACTED]	02/04/2013 09:39:48		A five storey building in this conservation area is a bit ambitious. Also, proximity to a main rail line below is a bit alarming. I would prefer to see a 3 storey building with less flats.	OBJ

2013/1210/P	4 St. Augustines Road London NW1 9RN	Rob Tulloch	Caroline Macdonald	[REDACTED]  [REDACTED]	08/04/2013 13:43:24		The building looks very like a converted Victorian workhouse. Can the planners encourage the designers to get rid of the dense brickwork look on the Agar Grove and St. Augustines Road sides of the building and add other interesting materials into the facade. This is a very prominent site and needs more inventive design rather than a large brick lump.	COMMNT
