I object to the application of proposed plans for 4 St. Augustines Road NW1 9RN.

The erection of the proposed build would lead to a considerable loss of daylight and sunshine to my Hallway and landing area.

I have a large window in my hall approximately 6 ft x 4 ft that is situated on the side elevation of the property that faces the junction area of Murray St. and St. Augustines Road. This allows considerable light into my property and would make it feel dark and drab.

I totally oppose.

Regards,

Matthew Jacques
