Subject: Re: 44 Woodsome Road - 2013/0493/P

Dear Mr. Quinn

Thank you for your latest e-mail. I can confirm that the proposed solar collection panels are of low profile type and they will project less than 200 mm from the roof tiles. The slope will be the same as the roof so that they will be almost invisible from the street.

kind regards

Dear Mr Voutsadakis

Could you quickly confirm in writing that the solar panels to be installed would project less than 200mm from the front roofslope?

Regards

Neil
